Summary

Highly motivated software developer seeking opportunities in a dynamic IT company. Proven ability to manage time efficiently and meet project deadlines. Demonstrated leadership skills through successful completion of various group projects. Eager to apply technical expertise and collaborate with experienced professionals to contribute to the growth and success of the organization.

Education

Bachelor of Technology - BTech • Oriental Collage of Technology, Bhopal

Aug 2019 - Jun 2023

Computer Science • Grade: 70

Education:

Bachelor of Technology in Computer Science Engineering
Oriental College of Technology, Bhopal

During my undergraduate studies, I actively engaged in various extracurricular activities, taking on the role of coordinator for numerous events. As a coordinator, I demonstrated exceptional organizational skills and the ability to manage multiple tasks simultaneously. These experiences enhanced my leadership abilities and allowed me to effectively coordinate teams to achieve successful outcomes.

Furthermore, my time at Oriental College of Technology fostered a strong foundation in computer science engineering. I consistently sought opportunities to expand my knowledge and skills, striving to stay up-to-date with the latest technological advancements.

Projects

Attendance System Based On Face Recognition

Jan 2023 - Jun 2023

Oriental Collage of Technology, Bhopal

- Developed the backend database for an Attendance System based on face recognition
 - Implemented efficient data management techniques to improve system performance
 - Ensured data integrity and security by implementing appropriate database constraints and encryption protocols
 - Collaborated with the frontend development team to integrate the database seamlessly with the user interface
 - Conducted extensive testing and debugging to ensure the proper functioning of the database
 - Successfully contributed to the overall project objective of creating an efficient and reliable Attendance System
